PROFILE

Full-stack engineer with 3 years of experience building and scaling web applications. Comfortable owning features end-to-end, from database schema to production deployment. Enjoys mentoring junior developers and improving team engineering practices.

EXPERIENCE

Software Engineer

Vantik Technologies | Zurich, CH | 2022 – Present

Built and shipped a new billing microservice handling 50k+ transactions/month, cutting invoice processing time by 60%. Migrated legacy monolith endpoints to a modular REST API. Introduced automated testing, raising coverage from 40% to 85%.

Software Engineering Intern

Bitforge Labs | Zurich, CH | 2021 – 2022

Developed internal dashboard tools using React and Node.js. Collaborated with design on a component library adopted across 4 product teams.

PROJECTS

OpenRoute – open-source route-optimization CLI tool (420+ GitHub stars). **StudyBuddy** – spaced-repetition flashcard app used by 1,200+ students.
